

# Q1 Do you support Citrus requiring proof of vaccination for all employees on campus?

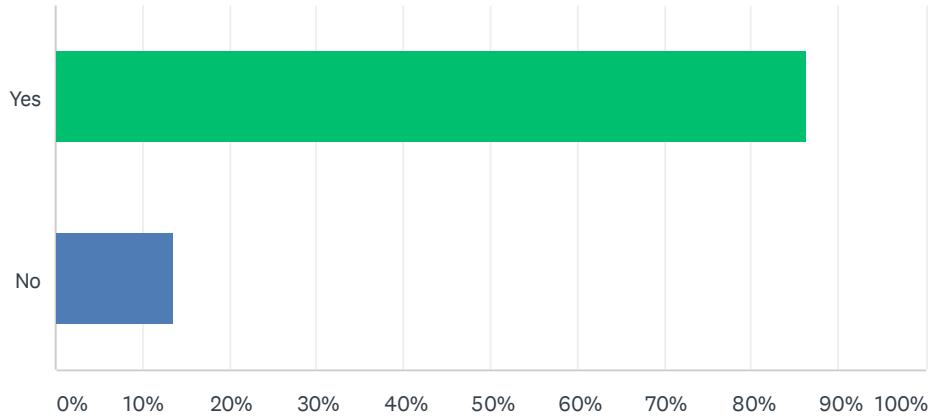

Answered: 118 Skipped: 2

ANSWER CHOICES	RESPONSES	
Yes	87.29%	103
No	12.71%	15
TOTAL		118

## Q2 Do you support Citrus mandating vaccinations for students who come on campus?

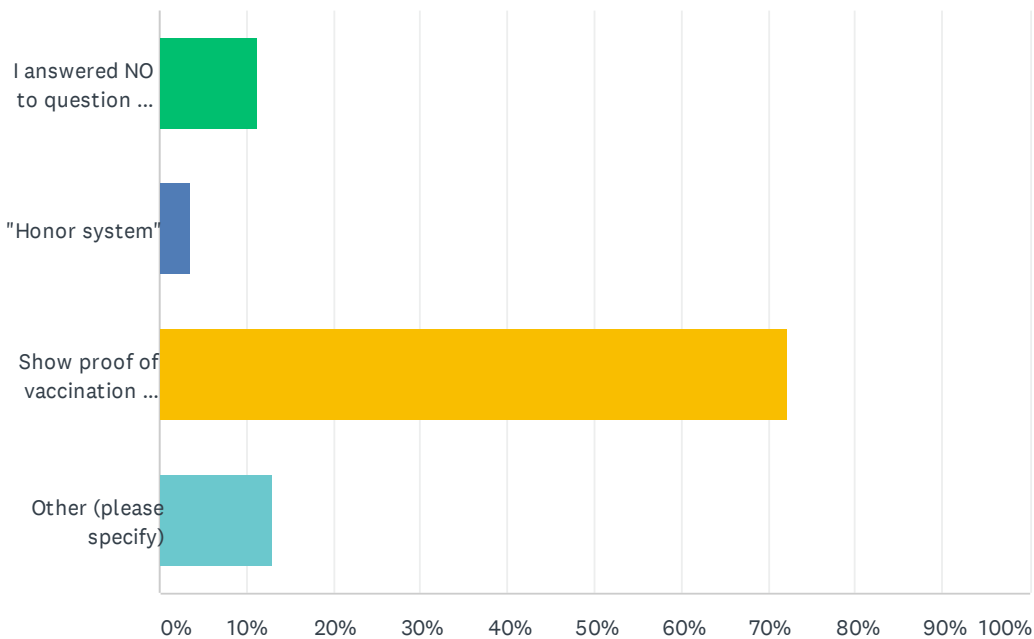

Answered: 118 Skipped: 2

ANSWER CHOICES	RESPONSES	
Yes	86.44%	102
No	13.56%	16
TOTAL		118

### Q3 If you answered yes to the previous question, how should Citrus track these students?

Answered: 115 Skipped: 5

ANSWER CHOICES	RESPONSES	
I answered NO to question 2 (skip)	11.30%	13
"Honor system"	3.48%	4
Show proof of vaccination at the start of a course, before entering buildings, or before receiving any student services on campus	72.17%	83
Other (please specify)	13.04%	15
<b>TOTAL</b>		<b>115</b>

#	OTHER (PLEASE SPECIFY)	DATE
1	Before registering for each semester verify vaccination and get a "covid" own passport. Must show to enter classrooms. Extra campus safety should monitor those entering buildings. Maybe students can have it available on their phones like a boarding pass on airplane	8/10/2021 5:40 PM
2	Show proof of vaccination at start of course.	8/10/2021 12:05 PM
3	Proof at registration would suffice.	8/10/2021 8:59 AM
4	Icorporate vaccination validation intothe Citrus mobile app so they show the health assessment, green ok and vax status in one screen.	8/10/2021 8:31 AM
5	Through Student Health. Should NOT be on faculty to check proof.	8/9/2021 4:58 PM
6	In my view, it should not be the professors' responsibilities to confirm student vaccinations. That would be unwieldy and inefficient; it might violate student privacy issues; and it should be done by people who have training in enforcing and managing those kinds of scenarios. Rather, that should be done administratively, perhaps by Campus Security or Health Services. I would like to see a scenario where students cannot enter the campus without proof of vaccination, and the school should keep a running list of who is vaccinated and provide some decal or other	8/9/2021 4:41 PM

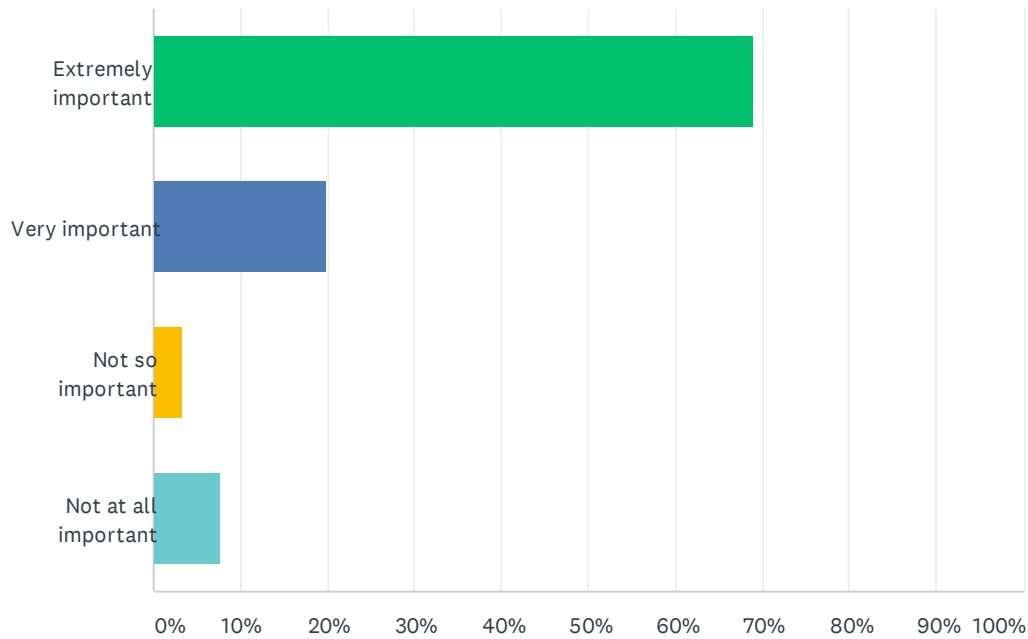

## Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

verification so that people do not have to be stopped and checked every time they come to campus.

7	Show proof of vaccination while registering for upcoming semesters. Show proof of vaccination at A&R and enter record on WingSpan	8/9/2021 4:32 PM
8	Administration should track this, clear the student once and then allow for registration/attendance in class. If a booster is required, then ask for proof of this (the same way they clear students for other vaccination requirements).	8/9/2021 3:58 PM
9	Managed at registration, orientation, or via student affairs when students receive their access sticker	8/9/2021 3:46 PM
10	Require proof prior to start of classes - we shouldn't take class time to verify/discuss personal health issues. Maybe require proof to "unlock" registration access. Many buildings like LB have individual doors to the outside which would require the faculty member to verify status for each class unless the area is fenced and entry points are set up for verification. Faculty should not be responsible for verification.	8/9/2021 3:27 PM
11	Upload to their WingSpan account or my.citruscollege.edu and then give them a certificate proof that they can keep on their phone.	8/9/2021 3:23 PM
12	Just like other colleges/univ when they require other vaccines. A copy should be provided by a certain date or registration will be put on hold. and a hold will be on record until verification.	8/9/2021 3:19 PM
13	Student services should track vaccination . Other schools require students to upload proof online.	8/9/2021 3:15 PM
14	They should do vaccinations or test twice a week. California has a vaccination passport like system that could be utilized to avoid fake vaccinations records.	8/9/2021 3:15 PM
15	upload to canvas or the student profile. run reports/notifications to instructors who do not sure proof. For SS: have it linked to student ID upon check in (if using a digital check in system)prior to receiving a service	8/9/2021 3:15 PM

## Q10 What is your comfort level returning back to campus in Fall?

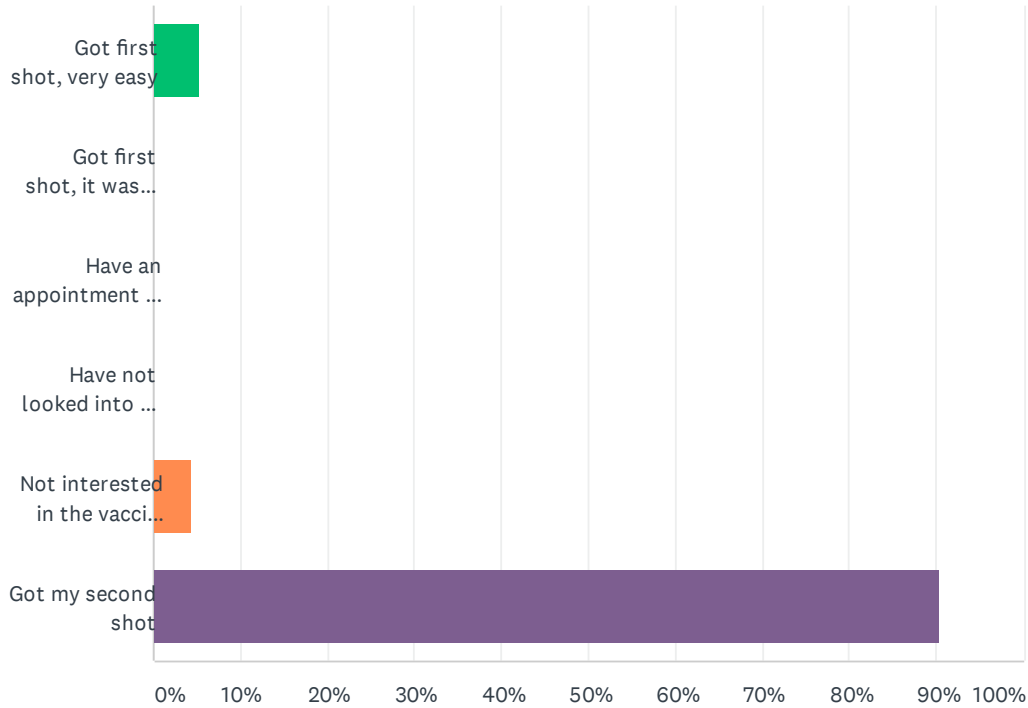

Answered: 116 Skipped: 4

ANSWER CHOICES	RESPONSES	
I am not comfortable yet	23.28%	27
I am only comfortable if strict protocols are in place (examples include but are not limited to...required mask wearing, vaccinations for everyone, higher standard for cleanliness, air filtration, social distancing in classrooms, contact tracing, and/or less students in each section etc.)	47.41%	55
I am already back on campus and am ok with it	10.34%	12
I am back on campus but prefer not to be	0.86%	1
I prefer to not return to campus and work remotely (given this is conducive to your program)	18.10%	21
<b>TOTAL</b>		<b>116</b>

## Q11 How has the vaccination process gone for you?

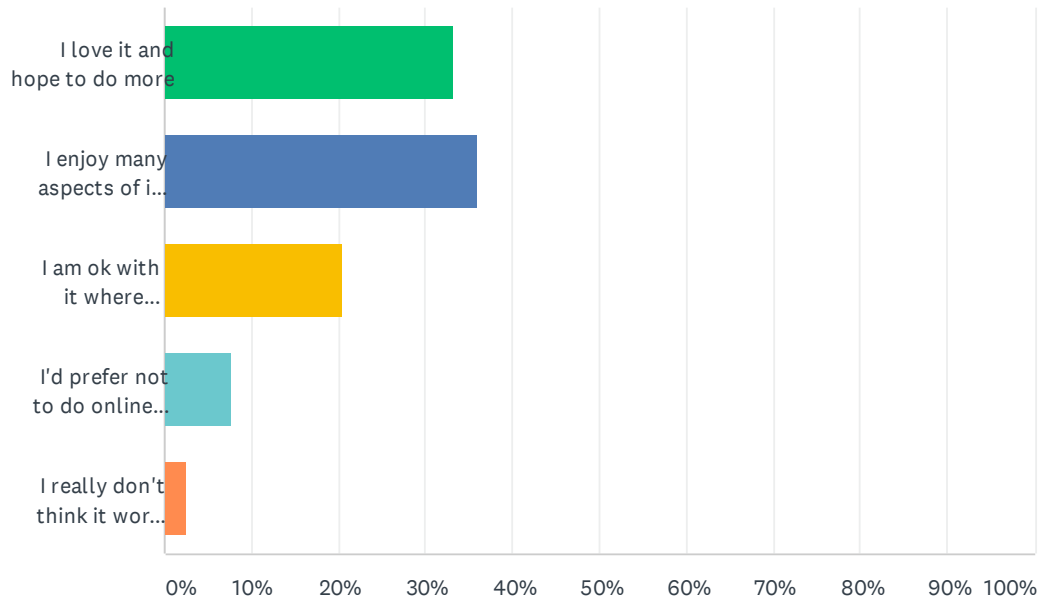

Answered: 115 Skipped: 5

ANSWER CHOICES	RESPONSES	
Got first shot, very easy	5.22%	6
Got first shot, it was a hassle	0.00%	0
Have an appointment to get my first shot	0.00%	0
Have not looked into it yet	0.00%	0
Not interested in the vaccine at this time	4.35%	5
Got my second shot	90.43%	104
<b>TOTAL</b>		<b>115</b>

## Q12 What are your thoughts on remote services and online education?

Answered: 117 Skipped: 3

ANSWER CHOICES	RESPONSES	
I love it and hope to do more	33.33%	39
I enjoy many aspects of it and hope to keep it part of my schedule	35.90%	42
I am ok with it where necessary	20.51%	24
I'd prefer not to do online education or provide remote student services	7.69%	9
I really don't think it works for me	2.56%	3
<b>TOTAL</b>		<b>117</b>

## Q13 If you are already back on campus, please share how your experience has been. Any concerns or things that need to be addressed? Any positive highlights?

Answered: 50 Skipped: 70

#	RESPONSES	DATE
1	Not back on campus yet and EXTREMELY perturbed by the number of Covid cases confirmed over the past several weeks from those who have returned!!!!	8/12/2021 2:43 PM
2	I'm not on campus this semester	8/11/2021 2:28 PM
3	I'm concerned that no protocols are in place. What has leadership been doing for the last year?	8/11/2021 8:57 AM
4	I work in an intensive care unit and have cared for CoVid patients through the surge. I believe masking, eye protection, distancing, and frequent hand washing is very effective and even more comfortable after being fully vaccinated.	8/10/2021 7:28 PM
5	i am really not scheduled to be back on campus (one hybrid class, the remainder on-line) until the fall semester but have no problems with it. my class schedule works great on-line and i'd prefer this (students seem to like it also) but not because of covid, i like teaching this way in my subject area. students respond that it allows them more freedom in scheduling their time, & my lectures, presentations & individual communications with the students are effective for the learning process.	8/10/2021 3:45 PM
6	I am not on campus, but answered I was on campus because there was no option I wanted that said "I am comfortable and looking forward to returning to campus"	8/10/2021 2:48 PM
7	N/A	8/10/2021 12:08 PM
8	N/A	8/10/2021 12:05 PM
9	N/A	8/10/2021 8:59 AM
10	"	8/10/2021 8:52 AM
11	I have been back on campus only on a voluntary basis so far. In the library there are 7 large "air scrubbers" now stationed in the LI building and they are fairly loud even on low, but I imagine it is safer for ventilation. I appreciate the QR code for building contact tracing.	8/10/2021 8:31 AM
12	My experience has been good for the most until I got Covid. We need rules in place and hopefully we are heading in the right direction.	8/9/2021 9:49 PM
13	I am comfortable being on campus and I hope that the vaccine will be mandated for students once the FDA issues full approval for the vaccines.	8/9/2021 9:16 PM
14	Not on campus yet.	8/9/2021 8:44 PM
15	The process would be so much easier, more safe, and more efficient if vaccination was required for students, faculty, staff and administration. A step that MANY other educational institutions are in the process of currently adopting	8/9/2021 7:53 PM
16	Not on campus	8/9/2021 7:00 PM
17	Yes I am ready. Students need to be in a traditional learning enviroment to optimize their learning.	8/9/2021 6:35 PM
18	NA	8/9/2021 6:17 PM
19	N/A	8/9/2021 6:14 PM
20	Not back yet	8/9/2021 4:58 PM
21	I will be on campus (I think!) starting on August 23, with one preparatory visit before. Is there a	8/9/2021 4:57 PM

## Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

convocation event planned?! Absolute silence and guidance from the administration regarding plans and protocols is a GRAVE concern!

22	Wash your hands, clean and disinfect as needed Our immune systems need to be trusted	8/9/2021 4:51 PM
23	N/A	8/9/2021 4:41 PM
24	NA	8/9/2021 4:32 PM
25	None	8/9/2021 4:32 PM
26	The college really needs to work on creating a welcoming environment for our students. The awful "campus closed" signs are still up on many of the entrances, the water fountains are in need of maintenance, the bathrooms are disgusting, and there are no vending machines available.	8/9/2021 4:26 PM
27	N/A	8/9/2021 4:17 PM
28	N/A	8/9/2021 4:14 PM
29	n/a	8/9/2021 4:10 PM
30	The answers that I have about mandatory testing are conditional on everyone being vaccinated. If vaccination is not required, the testing must be mandatory and weekly. I will be on campus in the fall and have had multiple conversations where I was given assurances that the important safety protocols will be in place (masking and HVAC). I'm quite concerned about the safety and am open to further discussion with the union and/or administration.	8/9/2021 4:05 PM
31	Not on campus yet.	8/9/2021 4:00 PM
32	N/A	8/9/2021 3:58 PM
33	Concerns: We will become the "mask police" with little support if we don't have students sign agreements from the district. We will quickly go back to a remote environment if the students or faculty are not vaccinated but are expected to all be in the same room or lab with very little room for social distancing. We will quickly run out of resources, not just supplies like mask but staff to make sure the areas are cleaned and disinfected. During our on-campus teaching there was very minimal cleaning and sanitation done by any staff other than the students or instructors. Concerned that there will be students, faculty, and staff that will not truthfully disclose any close contact or sickness symptoms. Highlight: I rather teach in-person and see partial faces	8/9/2021 3:54 PM
34	Upper management has not been on the ball - they have sat on their hands and done nothing to make me feel safe and welcome anyone back in a safe inviting way.	8/9/2021 3:54 PM
35	Na	8/9/2021 3:39 PM
36	N/a	8/9/2021 3:38 PM
37	I feel like a lot of the protocols appear to be hygiene theater- meaning a lot of things are for show. We need better ventilation, mandatory vaccinations for students and faculty, mask wearing regardless of vaccination status, and to utilize remote learning as much as possible to decrease exposure to other people until we have consistently low new cases of COVID. Given that there seems to be a positive case every couple of days with very limited students and faculty, opening the campus to full capacity is only going to result in more transmission. The variants are more contagious and more dangerous, especially for immunocompromised and children, and I'm worried about bringing it home to my family.	8/9/2021 3:32 PM
38	N/A	8/9/2021 3:30 PM
39	We wear masks and social distance. No problems. My students were really enthusiastic to be back on campus. Don't know if they were vaccinated or not. We didn't have any Covid infections. Supported each other with social distancing and masks.	8/9/2021 3:29 PM
40	N/A	8/9/2021 3:27 PM
41	not back on campus yet.	8/9/2021 3:24 PM
42	no complaints	8/9/2021 3:24 PM
43	We have plenty of space to keep our distance. Am checks for students need to be much	8/9/2021 3:21 PM

## Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

faster. They should implement a scanning system and send to faculty. Check points in rooms and bathrooms are good to scan but we need to remind students to scan bar codes.

44	So far the experience has been okay, but I am not working with students yet. I am very concerned about contact tracing in public areas. I have also noticed some people being less than dilligent about mask wearing which is a tad worrying.	8/9/2021 3:19 PM
45	There have been adequate protocols to keep both staff and students safe	8/9/2021 3:18 PM
46	I have done my best to support adjuncts returning to campus who were offered very little information regarding safety protocol.	8/9/2021 3:15 PM
47	It has been excellent. Other than vague instructions from HR in the beginning things have gone smoothly.	8/9/2021 3:13 PM
48	It's scary that proof of vaccination is not required for students.	8/9/2021 3:12 PM
49	Not back yet, but uncomfortable with the lack of information and leadership from management.	8/9/2021 3:02 PM
50	We have done a good job in spite of the District who has helped not at all. Our Dean doesn't even attend our weekly meetings regularly and has never asked us if we needed anything.	8/9/2021 1:46 PM

## Q14 Do you have any other comments regarding returning to campus?

Answered: 75 Skipped: 45

#	RESPONSES	DATE
1	Staff who have proven to competently carry out their professional responsibilities remotely should be given the right to continue doing so. There is no reason to force these folks back who still have legitimate concerns.	8/12/2021 2:43 PM
2	I think that the testing should only be for the unvaccinated. Everyone who has been vaccinated should provide proof of vaccination. I got vaccinated and do not like wearing the mask. I have a hard time breathing with it. How am I supposed to project my voice to the whole classroom. Is every instructor going to be provided with their own personal red cat? I would rather only go back when things have normalized and I am not required to wear a mask.	8/11/2021 10:07 PM
3	I believe that vaccination cards must be database confirmed, not just a hand written card like the one I received from Walgreens.	8/11/2021 2:28 PM
4	Just that the strict protocols in Question 10 are developed and put into place before all classes return. I know that is not a trivial task. But with variants and the many reports of cases on campus recently (when only some groups/classes are on campus and I'm assuming still small numbers), returning to campus is becoming more worrisome. Also, what will we have for equipment to support a new classroom environment, such as microphones vs the owl systems? Thanks for doing the survey.	8/11/2021 11:25 AM
5	Dean has already set us going back to campus spring 2022, yet there are many cases every day reported to HR. I would like to be given the option to keep being online since I live with people who are high risk.	8/11/2021 9:13 AM
6	I think this whole thing has been handled very poorly by administration. I hope they enjoyed drinking coffee and doing nothing for the last year and a half. I have their number now. They don't care about anyone or the school.	8/11/2021 8:57 AM
7	Thank you for putting together this survey. I'm not sure how I feel about mandatory weekly testing for faculty and staff if double vaccination is required of all employees. Maybe that would be overkill? I definitely think that (double dose) vaccination must be required of everyone to be on campus. I don't know about requiring weekly testing of students if they are already required to be vaccinated to be on campus- it seems like a bureaucratic nightmare. Though I know that students, being as active as they are, can be super spreaders. If vaccination is not required, then testing is a must. I would not feel comfortable coming back to campus unless vaccinations are required of everyone. Thank you.	8/11/2021 3:39 AM
8	keeping track of students' vaccination status will be difficult. If students are required to be vaccinated for other diseases (smallpox, etc) then it seems logical to require the Covid vaccine	8/11/2021 3:11 AM
9	I believe returning to a safe campus is what is best for the students related to education quality. On line is not as rich as face to face. Although online has its place and is beneficial if face to face is not possible.	8/10/2021 7:28 PM
10	I am not on campus, but answered I was on campus above because there was no option I wanted that said "I am comfortable and looking forward to returning to campus"	8/10/2021 2:48 PM
11	I will be back on campus for the fall 2021 with 3 in-person lab sections in Biology. I have my hesitations and would prefer that students wear masks at all times.	8/10/2021 2:10 PM
12	None	8/10/2021 12:08 PM
13	I have no confidence in the current administration, their covid response has been laughable in my opinion compared to other community colleges.	8/10/2021 12:05 PM
14	I feel it's still unsafe to return to campus due to numerous variants, and lack of containment of the spread. In addition, I don't want to put my health at risk being indoors with people who are not vaccinated.	8/10/2021 11:10 AM

Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

15	Nope	8/10/2021 8:59 AM
16	MIke hillman	8/10/2021 8:52 AM
17	When the library opens to the public on 8/16 I am concerned about non-students entering without the ability to check-in using the app. We have not yet put in place a procedure for how to verify health status without having a staff (or faculty) member stationed at the front door checking this during all open hours (8a-8p) Without a way to track who has been in the library, contact tracing will be impossible for those of us who work in public areas and I feel we will be more at risk of exposure.	8/10/2021 8:31 AM
18	Thank you for conducting this survey. I will not be on campus this Fall but am nevertheless very concerned unless the college requires vaccines for all students and staff, as well as masking for the duration of the Delta crisis.	8/10/2021 12:25 AM
19	Not until Spring. It's too dangerous	8/9/2021 11:15 PM
20	I will not go back to campus if we're going to be the "anti-vax" college in town! We should join the other community colleges, CSU, & UC systems, and mandate vaccination of students, staff, and faculty!	8/9/2021 9:53 PM
21	Testing and vaccination for everyone is essential	8/9/2021 9:49 PM
22	Vaccination should be mandated for students once the FDA issues full approval of the vaccines.	8/9/2021 9:16 PM
23	It is imperative to student learning & entire education to come back to campus as soon as possible.	8/9/2021 8:44 PM
24	I am concerned for the health of the citrus community, the ability to offer students the highest level of education possible, the future of many of the college programs, and the long term wellbeing of the college, unless we adopt a vaccination policy	8/9/2021 7:53 PM
25	No other questions	8/9/2021 7:00 PM
26	It is the word "mandate" that caused me to mark answers as "not important." "not important" is not a fair only option. Of course these issues are important but I am against the mandate. could we lose our income if we do not comply with the "mandate"? This is very serious, to lose one's income has very serious and devastating consequences.	8/9/2021 6:39 PM
27	None	8/9/2021 6:35 PM
28	If the District doesn't require vaccinations, I hope people sue the hell out of the place if they get sick.	8/9/2021 6:26 PM
29	NA	8/9/2021 6:17 PM
30	Who is going to be sterilizing the buildings at least 2 -3 times a day? Is the district going to supply N95 masks and shields for all employees.	8/9/2021 6:16 PM
31	We should surveying students on their preferences too. I have a feeling many want to take theory classes remotely and only show up in person for practicums or labs. We should be providing what the students need. If students prefer to take classes on campus, then I agree with returning, but we shouldn't be forced to return just because administrators prefer it that way.	8/9/2021 6:14 PM
32	We are two weeks from the start of fall semester and I have not seen enough communication about what we're doing to stay safe on campus. Perhaps there is a lot going on behind the scenes, but without hearing about the steps that are being taken, I do not have a lot of trust in our college's ability to keep students and employees safe.	8/9/2021 5:24 PM
33	Vaccines should be mandatory for all returning staff and students. Point blank.	8/9/2021 4:58 PM
34	No	8/9/2021 4:51 PM
35	Mandatory mask wearing indoors, not outdoors, which is consistent with current LA County protocols. Thank you for soliciting our input. :)	8/9/2021 4:41 PM
36	Although remote learning is not ideal for the learning process of my students, I still don't feel comfortable coming back to campus because I still have an unvaccinated minor at home who is still not eligible for the vaccine.	8/9/2021 4:32 PM

Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

37	Prefer not to see anyone especially from the department	8/9/2021 4:32 PM
38	No	8/9/2021 4:26 PM
39	I hope there are back up plans for switching back to remote if we do have an outbreak on campus	8/9/2021 4:17 PM
40	I would rather we err on the side of caution.	8/9/2021 4:14 PM
41	n/a	8/9/2021 4:10 PM
42	See#13	8/9/2021 4:05 PM
43	If requiring weekly testing, it should be easily available on campus to not serve as a burden to students or faculty. Having proof of negative result should be integrated into app, not on an honor system basis. The current how you feel self-reporting is not particularly reassuring.	8/9/2021 4:04 PM
44	Vaccinations need to be mandatory (as is with the UC's and CSU's) for all faculty, administrators, staff and students.	8/9/2021 4:00 PM
45	It should not be a one-size fits all process. Those (students, faculty, staff) who are comfortable returning sooner, should have that option; while those who prefer to wait and continue with remote teaching should be able to do that. Open, consistent and inclusive dialogue is critical where all parties involved have an equal voice in the decision making. An information campaign about the benefits of vaccinations and debunking the myths and mis/disinformation is also needed for those who are reluctant to get the shots. Thank you for taking the time to ask these questions and start this process.	8/9/2021 3:58 PM
46	We desperately need a detailed plan in place for covid protocol, guidance, vaccine requirement, on-campus testing and support. This would allow students, faculty, and staff adequate guidelines and tools for a safe and sustainable return to in-person learning and remove much of the confusion that currently surrounds our return to campus. Multiple California community colleges, including many neighboring schools, have already moved forward with a Board of Trustees vote in favor of vaccine mandates and testing. Without a mandate and adequate protocol, there will be lasting negative effects on the health of our Citrus College community, quality of our student's education, future of our programs, and viability of the college as a whole. Frankly, it's appalling that Citrus College doesn't already have detailed plans in place. We need all of this ASAP! I'm tired of our stagnated administration and district. Where is the consideration, care, and empathy for the students, faculty, and staff? What about the health of our community? I would LOVE to know what is the reason for the inaction? WHY are we months behind so many of our competing institutions? I have lost much faith in our institution. ANY visible sense of urgency would be a breath of fresh air. I believe that enacting immediate and progressive action is the only moral and responsible path forward.	8/9/2021 3:57 PM
47	I hope it goes well. I worry we will get 2-3 weeks in and we will shut it down again. Sorry for the pessimism!	8/9/2021 3:54 PM
48	We must return to campus and Citrus College needs to do everything in its power to make that happen - upper management serves us - not the other way around.	8/9/2021 3:54 PM
49	Time to get back on campus, move away from remote learning, get back to face to face instruction. For those students who want online coursework, option should be available through normal scheduling of classes as was prior to pandemic. All full-time instructors should be on campus daily unless medically cleared.	8/9/2021 3:49 PM
50	LAUSD is providing a mobile unit for testing to all school sites. I'm wondering if this could be done at Citrus? It would be a hassle for me to test on my own time and offload.	8/9/2021 3:47 PM
51	If there isn't a safe and hygienic plan in place to return to campus, then that's bullshit. Unlike most folks in leadership, I see a couple hundred students a day under normal circumstances between my office location and classroom assignments. I will not risk my life for you people.	8/9/2021 3:46 PM
52	It is a waste of time and financial resources to be testing individuals who will have to be ultra careful with their health if they are unvaccinated.	8/9/2021 3:43 PM
53	No	8/9/2021 3:39 PM
54	We need a vaccine mandate for all staff, faculty, and students on campus.	8/9/2021 3:39 PM

Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

55	Nope. Ready to go back in the spring	8/9/2021 3:38 PM
56	I want mandatory proof of vaccination. If a legal reason prevents someone from being vaccinated, I want that person to be tested regularly. Masks should be mandatory. (If any of my previous answers appear to contradict this statement, it was because I was confused by the particular question.)	8/9/2021 3:34 PM
57	I think there is a need for certain programs that require labs to go on campus, but the courses that can be held remotely should be allowed to continue remotely to decrease transmission and exposures on campus. We have worked so hard to learn all of these programs and improve our ability to work remotely, and I think it has kept a lot of faculty, students, and their families from unnecessary exposure. I think we also need to implement N95 masks for students and faculty that are entering clinical sites. We should be taking full precautions to limit exposure and improve safety for students, faculty, and the patients.	8/9/2021 3:32 PM
58	I am still not clear what happens when someone is COVID positive on campus. Are course sections shut down? Do employees in close vicinity isolate? I appreciate the memos but would like to know more about how this works.	8/9/2021 3:30 PM
59	I agree with masks and vaccination mandates but not weekly testing unless there is a breakout. Then I believe testing should be done for the area that has been infected. I don't have time to check and see if students coming to my class have been tested.	8/9/2021 3:29 PM
60	Comments on Weekly Testing are based on verified mandatory vaccinations. If not mandatory or "Honor System" then weekly testing becomes more important. Is testing part of our workday or do they set other times outside of work day for tests (ie we have to come in on Friday or do it after the end of the day) - can I get tested during office hours or other contract time? I am concerned about the process if it requires daily screening online on an app, scanning QR codes etc. that eat up time and are subject to working well by the type of device you have, data load at the time etc. I do not want to become the "mask police" in classroom without authority to remove students from class - constant "Please cover your nose and mouth etc is a waste of everyone's time and disruptive. If no mask or not worn properly, we should be able to direct the student to leave the classroom. Rules that are not enforceable are worthless.	8/9/2021 3:27 PM
61	Since the Delta virus is so dangerous, I think remote teaching and counseling and work in general is the best way to keep everyone safe from getting sick. My department has mostly parents of young children, making an on campus work situation dangerous for everyone until the kids can be vaccinated. Especially since we can carry the virus without symptoms. It's still a dangerous time, but people are eager to try to make life normal again. I am afraid it's just not time to go normal yet.	8/9/2021 3:26 PM
62	none.	8/9/2021 3:24 PM
63	none	8/9/2021 3:24 PM
64	Only seems fair to treat all faculty the same, either everyone comes back or no one comes back this fall. With the exception of special programs that need to be back to continue running (Nursing, Cosmetology, Performing Arts, Athletics, Automotive).	8/9/2021 3:23 PM
65	I would prefer to teach online.	8/9/2021 3:22 PM
66	I am ready to go back. My courses need to be taught live not virtual.	8/9/2021 3:21 PM
67	Unfortunately, the clearance questionnaire that students/staff must complete now is not reliable. False information can be given.	8/9/2021 3:19 PM
68	I have so many questions and there are so few answers. What about fake vaccine cards? And the homeless population? Do we have enough staff available to check in students and get them tested? How many cases do we have to have on campus before it's considered an outbreak and do we shut down then? Sorry. Just..a lot of questions.	8/9/2021 3:19 PM
69	Return to campus is fine as long as a good plan is set. Bring smaller groups at a time and see how this pandemic trend is going to be near our future.	8/9/2021 3:18 PM
70	It is unacceptable the school has not reached out to the community with very clear safety protocols. Other schools like Santa Monica College required online safety trainings before campus return. Faculty were paid \$425 for completing the 4-6 hour online training.	8/9/2021 3:15 PM
71	Masks should be required, testing twice a week for unvaccinated faculty and staff, I hope that	8/9/2021 3:15 PM

## Citrus College Vaccine/Mask Mandate and Readiness to Return to Campus

we continue to work remotely with the numbers being so high.

72	The survey questions here are not that clear. Fully vaccinated people do not need weekly testing. Unvaccinated people do, whether faculty, staff or student.	8/9/2021 3:14 PM
73	Students (and staff/faculty) should only be allowed on campus if they present proof of vaccination	8/9/2021 3:12 PM
74	Turn the lights on.	8/9/2021 3:02 PM
75	Open the parking lots!	8/9/2021 1:46 PM

**Q15 If you would like to enter the gift card raffle if you respond by 8/11/21, please leave your name here and we will contact the winner via Citrus email.**
