

### Q1 What type of class are you taking this semester? (select all that apply)

Answered: 341 Skipped: 1

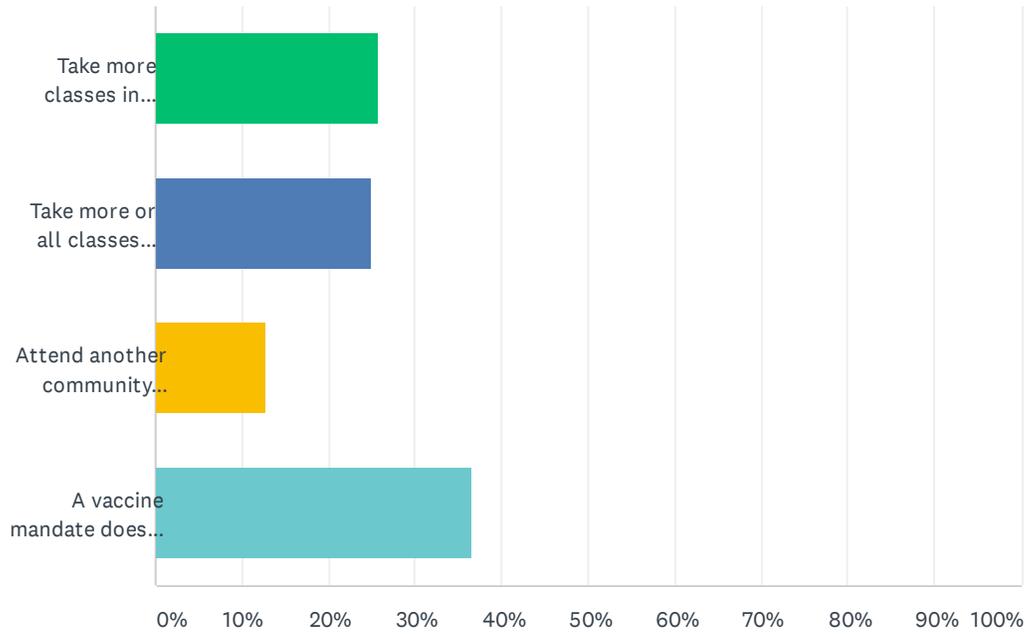

ANSWER CHOICES	RESPONSES	
Fully online (asynchronous)	45.16%	154
Hybrid - some scheduled meetings on campus	12.02%	41
Live online - all class meetings on zoom (synchronous)	16.13%	55
On campus (face to face)	6.16%	21
A mix of the above	20.53%	70
<b>TOTAL</b>		<b>341</b>

### Q2 If Citrus College implemented a vaccine mandate (must have both shots and record uploaded), what might you do regarding taking classes at the College?

Answered: 342 Skipped: 0

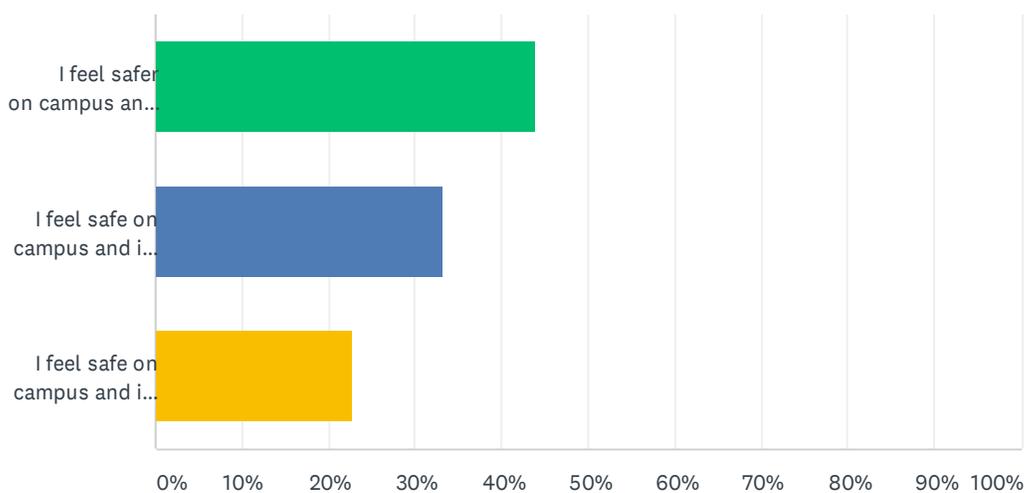

### Citrus Student Perspective on the Return to Campus and on Vaccines

ANSWER CHOICES	RESPONSES	
Take more classes in person at the College	25.73%	88
Take more or all classes online at Citrus	24.85%	85
Attend another community college without a mandate	12.87%	44
A vaccine mandate does not affect my enrollment decisions	36.55%	125
<b>TOTAL</b>		<b>342</b>

### Q3 Which of the following statements do you agree with:

Answered: 339 Skipped: 3

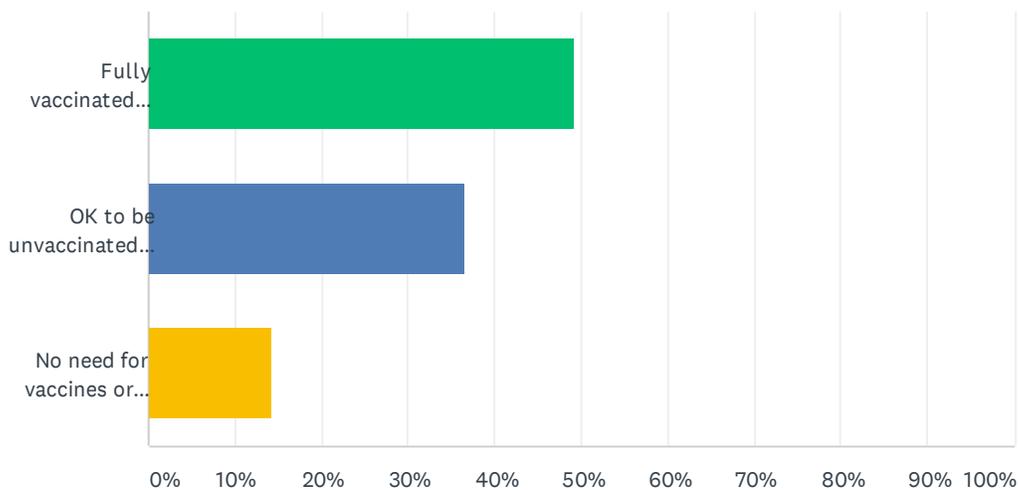

Citrus Student Perspective on the Return to Campus and on Vaccines

ANSWER CHOICES	RESPONSES
I feel safer on campus and in face to face classes knowing that the people around me are fully vaccinated	43.95% 149
I feel safe on campus and in face to face classes with face coverings and social distancing protocol regardless of my own vaccine status or if people around me are fully vaccinated	33.33% 113
I feel safe on campus and in face to face classes regardless of safety protocols or vaccination status	22.71% 77
TOTAL	339

Q4 If a course you need is only offered on campus, which would you prefer

Answered: 342 Skipped: 0

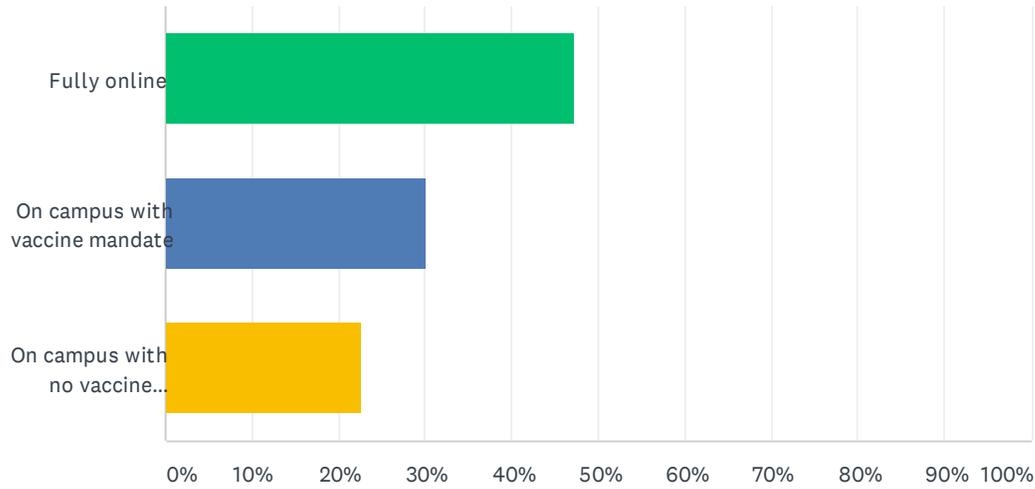

ANSWER CHOICES	RESPONSES
Fully vaccinated campus	49.12% 168
OK to be unvaccinated, but must wear a mask	36.55% 125
No need for vaccines or masks	14.33% 49
TOTAL	342

Q5 If a course you need is offered both on campus AND fully online, which of the following would you prefer

Answered: 341 Skipped: 1

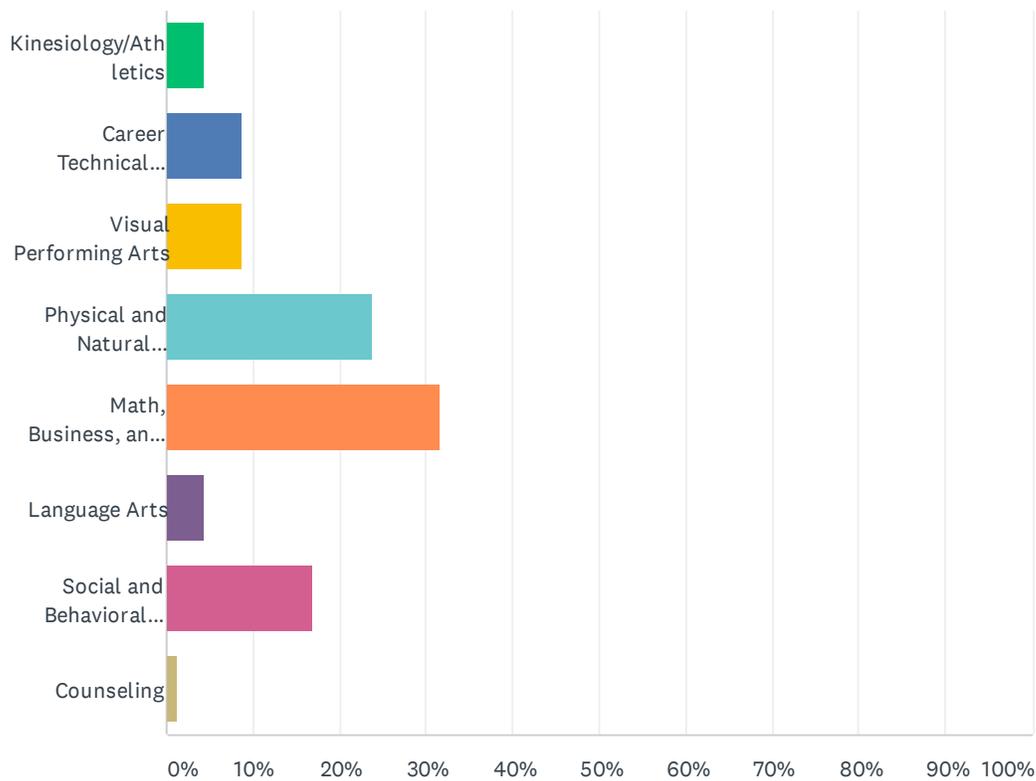

## Citrus Student Perspective on the Return to Campus and on Vaccines

ANSWER CHOICES	RESPONSES	
Fully online	47.21%	161
On campus with vaccine mandate	30.21%	103
On campus with no vaccine mandate.	22.58%	77
TOTAL		341

## Q6 What discipline contains most of your classes

Answered: 341 Skipped: 1

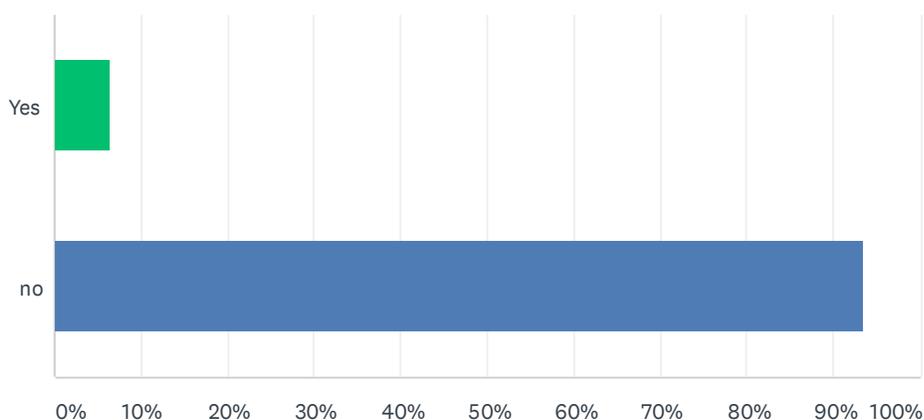

## Citrus Student Perspective on the Return to Campus and on Vaccines

ANSWER CHOICES	RESPONSES	
Kinesiology/Athletics	4.40%	15
Career Technical Education	8.80%	30
Visual Performing Arts	8.80%	30
Physical and Natural Sciences	23.75%	81
Math, Business, and Health Science	31.67%	108
Language Arts	4.40%	15
Social and Behavioral Science	17.01%	58
Counseling	1.17%	4
<b>TOTAL</b>		<b>341</b>

### Q7 Are you currently taking classes at multiple colleges

Answered: 342    Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	6.43%	22
no	93.57%	320
<b>TOTAL</b>		<b>342</b>

### Q8 Comments? (optional)

Answered: 97    Skipped: 245

#	RESPONSES	DATE
1	I do not mind masks and social distancing. I do not agree with a vaccine mandate. Online courses work best for my lifestyle at this time.	9/15/2021 12:02 PM
2	n/a	9/15/2021 11:53 AM
3	It's not right to force people to get vaccinated. It should be the person's choice with the right information about the covid vaccine.	9/15/2021 11:38 AM

## Citrus Student Perspective on the Return to Campus and on Vaccines

4	Require proof of Vaccination please. It's not fair to the ones who are to be mixed in with those who aren't . That would put many peoples lives at risk.	9/15/2021 11:27 AM
5	None	9/15/2021 11:27 AM
6	Personally, I'm 8 months pregnant and am considered high risk to COVID-19 so if I was to take an on-campus course I would feel more comfortable to do so if everyone was vaccinated and still wearing a mask. My reason being that fully vaccinated individuals can be carrying the virus and not know it and even with the vaccine the more malignant strains of the virus can be very damaging to immuno-compromised individuals. Hence why I'm taking online only classes regardless of others choices to be vaccinated or not. And quite frankly, I had an On-campus course during this last summer semester and most students did not wear a mask in the proper fashion for it to even be effective.	9/15/2021 11:23 AM
7	I wanted to know if it was possible to mandate vaccinations so students don't have to wear masks?	9/15/2021 11:11 AM
8	People who has reasonable reason such as allergic to the vaccine, dont need to be mandated, but people just oppose to vaccine must get vaccine.	9/15/2021 10:54 AM
9	.	9/15/2021 10:36 AM
10	I feel with us going forward in trying to make everything go back to "normal" per-pandemic, we can still try to accommodate those who have taken the opportunity to take classes fully online, which wasn't an option before. It gives the college a more success rate for those who finished / or returned back to school despite a global pandemic occurring.	9/15/2021 10:28 AM
11	N/A	9/15/2021 9:27 AM
12	Honestly, even with a vaccine mandate and all social distancing/masks enforced if online is an option, I would prefer online.	9/15/2021 9:21 AM
13	No comment	9/15/2021 8:13 AM
14	I WANT TO GO BACK TO CAMPUS I AM TIRED OF ONLINE!! OPEN THE CAMPUS ALREADY!!	9/15/2021 7:47 AM
15	NOOO MANDATES!!	9/15/2021 12:25 AM
16	I would like us to go back to campus because in my opinion this is all to much for with everything being online and I'm not really getting a better understanding in my classes and my learning experience.	9/14/2021 10:40 PM
17	I hope Citrus College continues online classes, due to many people including myself not feeling safe out in public just yet. New variants are arising which I feel is safest to continue 100% online classes.	9/14/2021 10:15 PM
18	I personally rather be online for so many reasons but more importantly because it just keeps everyone safe as my kids as well.	9/14/2021 9:53 PM
19	I don't feel like we should force people to get vaccinated. It should be their personal choice. I am vaccinated to protect myself and encourage others to get vaccinated too but I don't feel like it should be forced.	9/14/2021 9:52 PM
20	N/A	9/14/2021 9:45 PM
21	I personally do better with education when it is face to face. If possible, could we get more classes with the opportunity to take face to face soon?	9/14/2021 9:21 PM
22	If the preference for online classes but also vaccines is confusing, the reason behind that is that my preference of online classes has nothing to do with covid-19.	9/14/2021 9:10 PM
23	I believe any student who wants to learn should be able to come to campus, regardless of vaccination status. :)	9/14/2021 8:19 PM
24	what is the point of the vaccine? everything is still the same although so many have already gotten it, there has been no improvement. Mandating students to get a vaccine won't be fair to them. I am vaccinated and am regretting it, because not only was I promised to not have to wear a mask just to have the promise broken, but once again, there has been no change to anything.	9/14/2021 8:11 PM

## Citrus Student Perspective on the Return to Campus and on Vaccines

25	Vaccine should not be mandatory	9/14/2021 7:31 PM
26	A vaccine mandate is unconstitutional. Any and all medical procedures should be the private and informed choice of the individual.	9/14/2021 7:13 PM
27	I would prefer to continue only with fully online. I have two senior parents in my home and a 8 yr old child. Our health is my priority.	9/14/2021 7:11 PM
28	Regardless of vaccination status and vaccine mandates, the current COVID-19 vaccine is only ~60% effective against the Delta Variant. A newer, more deadly variant has been discovered in Hawai'i, against which the current COVID-19 vaccine may be even less effective. A vaccine mandate may help slow the spread of the virus but considering the fact that there are thousands of student currently enrolled at Citrus College, a large number of students WILL become infected. And unlike the mass-flu or mass-chicken pox infections common in college campuses, a mass-COVID infection will have greater life-threatening consequences, both for students and those who come into contact with them.	9/14/2021 7:07 PM
29	Coming from someone who is fully vaccinated as of April, the vaccine itself drops to 40% protection after six months which is right about now for me. Even though people around me would *hopefully* be vaccinated, I don't think I would feel safe regardless. I just know that since campus has kind of opened back up, I have gotten several emails about exposure in several areas on campus. That's too risky for me. I'm not worried about getting it myself, but I am worried about passing it onto people I come into contact with and that isn't something I am willing to risk. I am/have only taken online classes and wish to do so until absolutely unnecessary. In my personal opinion, LA county is too exposed to be opening back up and thinking about in person classes overwhelms me with anxiety. I know staff and faculty will make the best decision for the safety of the students and for themselves, so I am hoping that the decision is made in that matter versus grades, attendance, and enrollment.	9/14/2021 7:00 PM
30	Following state and or local guidelines is what makes most sense to me.	9/14/2021 6:50 PM
31	I think everyone has there own right to choose to do what they wish with they're body as long as it's safe for people around them.	9/14/2021 6:50 PM
32	No	9/14/2021 6:49 PM
33	Get rid of the damn testing	9/14/2021 6:48 PM
34	I'm an international student from Japan so that I really hope to take in-person classes also I need to improve my English skills. It'll be honest, tuition for international students is super expensive.	9/14/2021 6:42 PM
35	Be aware of safety for all people	9/14/2021 6:40 PM
36	Virtual classrooms have really opened up continuing education for people who have full time jobs and aren't close enough to campus to engage in solely in person classes. Consider extending virtual classes, even as things open up to continue making your curriculum available to those who may otherwise never be able to participate.	9/14/2021 6:34 PM
37	I believe un science!	9/14/2021 6:30 PM
38	There shouldn't be a need for weekly COVID tests for students who can provide proof of full vaccination.	9/14/2021 6:22 PM
39	I think people should have the option whether or not they want to vaccinate themselves but I also think that people on the other end have the right to feel protected. So I don't believe a mandate is really allowing an individual to practice autonomy but I also think people who don't want to be vaccinated should be protecting the people who want to be cautious and the unvaccinated people should wear a mask and use hand sanitizer.	9/14/2021 5:54 PM
40	I liked having my classes online, I felt safer, and I liked zooming and having prerecorded lectures so I can go back and listen anytime I could.	9/14/2021 5:22 PM
41	I think people should have a choice in getting vaccines and medical treatments. I do not want to live in a country where the government forces us to do or take something. I expect colleges and schools to let it be a choice as well.	9/14/2021 5:20 PM
42	I'm vaccinated and encourage other to get vaccinated, I just don't feel safe in public at the moment with the delta variant because although the vaccine prevents serious illness, it does	9/14/2021 5:13 PM

## Citrus Student Perspective on the Return to Campus and on Vaccines

not completely protect me. Even if the campus was mandated to get vaccinated I think we would still have COVID cases and we would still be at risk

43	In my opinion... It is unethical to mandate vaccinations for students to attend in person classes. If people are afraid, they can take classes online. Refusing to allow someone on campus because they are not vaccinated, is a form of discrimination.	9/14/2021 5:09 PM
44	I take online classes because of my 9-5 work schedule, but my spouse recently had a major organ transplant and is immune compromised; I would not feel safe taking classes on campus unless it was a fully vaccinated campus because I would be worried about transmitting a breakthrough infection to my spouse. I had to have a measles shot to go to high school, I don't have a problem requiring students and faculty to have a covid vaccine to go to college.	9/14/2021 4:49 PM
45	I feel if everyone is vaccinated and also wearing a mask and hand sanitizer at all times.we should be ok and also for the professors.	9/14/2021 4:27 PM
46	I prefer taking classes at campus.	9/14/2021 4:20 PM
47	none	9/14/2021 4:17 PM
48	I feel safest with online classes. I have medical issues that I have and that my family have as well that I cannot risk.	9/14/2021 4:17 PM
49	None	9/14/2021 4:16 PM
50	Prefer online classes at least until after this flu season	9/14/2021 4:12 PM
51	N/a	9/14/2021 4:04 PM
52	I would prefer online classes and more availability for online classes in the future semester, if covid is still present. I feel that providing more opportunities for online classes can make students feel safer and more protected, even if we have the vaccine. I would prefer to prevent the risk of infection to us and others if all possible, as opposed to opening fully when covid is still present.	9/14/2021 4:03 PM
53	Ok	9/14/2021 3:59 PM
54	Na	9/14/2021 3:59 PM
55	online class is safe than in person class , I would like to take online class	9/14/2021 3:59 PM
56	I still not fell safe go back to campus while I take lab class. Because even have protection or vaccinated, still have chance to get covid .	9/14/2021 3:42 PM
57	I prefer taking classes online than having to go to campus.	9/14/2021 3:24 PM
58	None	9/14/2021 3:18 PM
59	Full vaccinated with mask cover and social distance is a must do to study on campus!!!!!!!	9/14/2021 3:03 PM
60	I don't feel comfortable at all going to a building with 20 plus students that has no open windows and a air conditioner/filter that doesn't always work. This has been heightened by the fact that there are multiple strains of COVID 19 that are much more contagious spreading throughout Southern California. Though the world like to pretend COVID is over, it's not and I should not have to risk my life/health over my education.	9/14/2021 2:55 PM
61	Vaccine mandates are a clear violation of one's personal rights.	9/14/2021 2:39 PM
62	No	9/14/2021 2:27 PM
63	The current medical professionals who are the face of this pandemic effort have clearly stated that masks are ineffective and the vaccinations do not slow the spread. Vaccinations and coverings should be by choice. No government, and especially no institute of higher education, should ever bribe or coerce people into doing anything with their bodies that they don't want to do. If someone chooses to get vaccinated they have just as much likelihood of contracting this virus from another vaccinated individual as they do from an unvaccinated individual. Immunocompromised individuals have been given the okay to receive this vaccination as well. There is no scientific or moral justification for forced vaccinations or other mandates.	9/14/2021 2:24 PM
64	I think the vaccine should be optional. I am still okay with wearing masks and going back	9/14/2021 2:20 PM
65	If we have proof of vaccination there's no need for testing. It's been a year already get over it	9/14/2021 2:11 PM

## Citrus Student Perspective on the Return to Campus and on Vaccines

66	No	9/14/2021 2:10 PM
67	I'm a fully vaccinated student, but I don't think it's right to impose a vaccine mandate on others. It should be a choice.	9/14/2021 2:05 PM
68	I would hope that Citrus College does not make vaccines mandatory	9/14/2021 1:57 PM
69	vaccine should be optional!	9/14/2021 1:56 PM
70	Na	9/14/2021 1:54 PM
71	n/a	9/14/2021 1:53 PM
72	Please please make vaccines and masks mandatory when we are doing in person classes.	9/14/2021 1:51 PM
73	no comment :) have a good day and life <3	9/14/2021 1:51 PM
74	Please keep online classes as an option	9/14/2021 1:51 PM
75	no	9/14/2021 1:51 PM
76	I just want to go back to in person full time.	9/14/2021 1:49 PM
77	this was interesting thank you for the experience	9/14/2021 1:47 PM
78	Please don't mandate the vaccine to be on campus..	9/14/2021 1:46 PM
79	Even if the school requires full vaccination for attendance it doesn't make me feel any better knowing that here have been recent cases of people testing positive with the virus through the emails we get. So no matter what mandates go through I will continue online classes.	9/14/2021 1:43 PM
80	If offering or can offer off and on campus classes, I fully support that in person classes should be with fully vaccinated people only. People then have a choice.	9/14/2021 1:21 PM
81	I love the online education. That's the way I would like to continue my education. The campus should not reopen without a vaccine mandate. End of story. There's no other way to maximize the safety of students and faculty.	9/14/2021 12:35 PM
82	I won't be going to campus even I am required to I rather unenroll and be safe because things are going from bad to worse. Thank you.	9/14/2021 12:29 PM
83	I have no option but to return to school next spring and knowing that I have family to go home to I would only feel safe if full vaccination was mandated along with safety protocols and social distancing.	9/14/2021 12:26 PM
84	As stated in my previous responses I would not mind a vaccine mandate, in fact, I would prefer if it were implemented. In order to ensure the safety of my fellow classmates, staff, and myself, I would prefer for there to be a vaccine mandate.	9/14/2021 12:25 PM
85	Please consider the people who do not want the vaccine and at least allow us to continue online if we cannot come to campus without a vaccine.	9/14/2021 12:24 PM
86	I play a sport personally, I feel like we should have a choice to be vaccinated or not.	9/14/2021 12:23 PM
87	with the increased amount of confirmed covid cases on campus, although i would like to return to campus i feel safer not returning until things settle down again.	9/14/2021 12:20 PM
88	It would be nice being in person for both of my classes.	9/14/2021 12:09 PM
89	I did not have an answer for question 5	9/14/2021 11:52 AM
90	I really enjoy that some professors record their lectures. It's so great that we can go back and listen and pause and take notes and listen again If we need. I hope that doesn't go away. I appreciate all of the effort by citrus instructors. Their availability and ability to use canvas does not go unnoticed. They have made this transition so smooth and user friendly. It's going to be difficult to transition back to not being so attached to canvas, have access to the lectures and the overall accessibility that we have online. Please be gentle.	9/14/2021 11:40 AM
91	Having to check in everywhere on campus is inconvenient and pointless in my opinion, it is basically impossible to keep track of the spread of covid on campus and it is possible for	9/14/2021 11:17 AM

## Citrus Student Perspective on the Return to Campus and on Vaccines

people to be untruthful in the pre-screening questions which defeats the purpose of keeping track of people on campus.

92	I feel like forcing ppl to get the vaccine is extreme until it's fda approved and guaranteed safe and unharmed even though I do have it I wouldn't want kids to not be able to go on campus if they didnt	9/14/2021 11:10 AM
93	I would feel safer if we take Precautions instead of mandating vaccines because everyone knows that even if you are vaccinated u can catch and also spread Covid. I also believe that Professors should have a back up plan for when people have to quarantine themselves.	9/14/2021 11:05 AM
94	I feel like vaccines shouldn't be mandated but masks should be worn if you aren't vaccinated since some people have health conditions.	9/14/2021 11:03 AM
95	N/A	9/14/2021 10:56 AM
96	many people are going to drop out/move schools due to this mandate or drop classes. this should have been done before people registered for class. we are a public school.	9/14/2021 10:08 AM
97	A vaccine mandate should absolutely be implemented. My health and education should not suffer just because there are some who believe that their only responsibility is to themselves.	9/14/2021 9:54 AM
